P.O.D., Addicted

Intoxicated, viral poison
Girl, fill me up with nothing in myself but
Mutilation
You'd let me blow my brains, go insane
Throw it in my face and watch me chase it
Stimulate, wide awake
Need to stop this pain inside my head
Cause its laughing at me
Injection, explosion
Burning acid surges through my veins
Cause I, (Cause I) I'm addicted (I'm addicted_
To all the colors that I see that you hold in front of me
You will change, (You will change) you will change (You will change), yeah you will change me (Yo
Why do I love you when I know, love you when I know that
I, I'm addicted
To all the colors that I see that you hold in front of me
You will change (You will change), you will change (you will change), yeah you will change me (you
Why do I love you when I know, I love you when I know you're wrong

Over and over
Indulges in anyone or anything that makes you feel
So alive
I am electrified, I'm so high
Numb to all of you who are just
out to get me
Fascinate, escalate
Cast a spell and maybe I might
Forget, who I am
Cowardice, selfishness
Thank you for letting us watch you die

Cause I, (Cause I) I'm addicted (I'm addicted)
To all the colors that I see that you hold in front of me
You will change, (You will change) you will change (You will change), yeah you will change me (Yo
Why do I love you when I know, love you when I know that
I, I'm addicted
To all the colors that I see that you hold in front of me
You will change (You will change), you will change (you will change), yeah you will change me (you
Why do I love you when I know, I love you when I know you're wrong

Liar!
You are a liar!

Liar!
You are a liar!

Cause I, (Cause I) I'm addicted (I'm addicted_
To all the colors that I see that you hold in front of me
You will change, (You will change) you will change (You will change), yeah you will change me (Yo
Why do I love you when I know, love you when I know that
