

702, Make Time

verse 1-

You say you wanna be the one
but still you leave the job undone
You only call me when your free
but you know that it ain't good enough for me

Your always leaving with your friends
as if ur out der making ends
and now your knocking on me door
well I guess you were to busy before

-Chorus-

You betta make time
if you wanna be with me next to me, can't you see
show me I've got everything you need, everything
think twice if you wanna be with me, next to me
wanna take the ride
you betta make da time

You betta make time
if you wanna be with me, ecstasy
show me I got everything u need, fantasy
think twice if you wanna be with me, next to me
wanna take the ride
you betta make da time

verse 2-

There's other places I can be
if your not careful you might see
Me out there with sumbody else
if you do u can only blame it on yourself

I'm feelin' you without a doubt
But I know how to do with out
So don't you call me on the phone
Late at night when you don't wanna be alone

-Hook-

Don't wanna be your part time lover
(don't wanna be your part time lover)
I've gotta be more then just another
(you know, you betta make)

Repeat Chorus-

Gonna have to show me
You wanna be me one and only
Gonna have to prove it to me
Don't wanna be a part time lover
I've gotta be more den juss another

Repeat Chorus till fade-
