77 Bombay Street, Low On Air

Diving in copipi, beautiful reefs
So I've been diving with the sharks and the turtles
Watching Triggerfish beautiful color
Stabbing with the beak...
Oh, that's the sunny sight, that's the fun sight, oh yeah
That's the sunny sight on the light!
When I get back home, when I get back home
There's always something going wrong!

I'm running low on air,
I'm running low on air right now
Need to go up, to the surface,
Need to get a new time where the new regulator
Help me find my way to the surface!
And I'm still going down, something pulls me right to the round
This feeling is tearing me into pieces
I'm running forward and running lower right now
Need to go up to the surface!

Living in a bubble, deep down on the water,
Playing with the playing with the ogres and dolfins
Dancing with the mermaids, singing with the blue whales
Party with the fish in the ocean
And now I'm sitting in my office, drinking... coffees
Every day is just the same!
I need to go back to Copipi, out of the city,
I really need to go back again!

I'm running low on air,
I'm running low on air right now
Need to go up, to the surface,
Need to get a new time where the new regulator
Help me find my way to the surface!
And I'm still going down, something pulls me right to the round
This feeling is tearing me into pieces
I'm running forward and running lower right now
Need to go up to the surface!
I'm running low on air
I'm running low on air!

Whales, whales, whales lead me to your secret place
Whales, whales, whales take me to your place!
Whales, whales, whales lead me to your secret place
Whales, whales, whales take me to your place!

I'm running low on air,
I'm running low on air right now
Need to go up, to the surface,
Need to get a new time where the new regulator
Help me find my way to the surface!
And I'm still going down, something pulls me right to the round
This feeling is tearing me into pieces
I'm running forward and running lower right now
Need to go up to the surface!
I'm running low on air
I'm running low on air!
