Another day you try to let it go
But it's all encompassing yeah and it grows
You knew it all and now it's new to you
So much wiser than before but too soon to tell
Don't get close to the edge or you will fall fast from grace
Then it's so hard to believe

Take a look at yourself what do you see
Every time you get close that's when I see you - I see me
You sing a song of truth but you're living a lie
So hard to believe

You got a dream, you got to see it through
Yes I hear what you say but I don't think you do
Come on give me this 'cause I don't need your sympathy
As I stand here holding the line please take it from me

Don't get close to the edge or you will fall fast from grace
Then it's so hard to believe

Take a look at yourself what do you see
Every time you get close that's when I see you - I see me
When my spirit was low you made me look to the sky
You left a hole in my heart but I don't know why
It's so hard to believe
