Pink Cream 69, Signs Of Danger

You're here beside me
I'm livin' a life that changes
You're inside me
You never care what I go through

Hot desire
Running like fire through you
Higher and higher
As long as you want it to, ooh oh oh oh oh oh...

Aah ah ah, ah ah...
Changes are colors in my life
Changes can cut you like a knife

Walk the streets under these signs of danger
Walk beside me away from danger

My home is nowhere
Unless my home is in you
No tomorrow
When there is only we two, ooh oh oh oh oh oh...

Aah ah ah, ah ah...
Changes are colors in my life
Changes can cut you like a knife

Walk the streets under these signs of danger
Walk beside me, away from danger

Walk the streets, walk the streets
Walk the streets, walk the streets
Walk the streets

Walk the streets under these signs of danger in this world...

Tell me what we're gonna do
Tell me what we're going through, please!
Tell me where the hell to go
Tell me all I wanna know!

Walk the streets under these signs of danger
Walk beside me, away from danger

Walk the streets, walk the streets
Walk the streets, walk the streets
Walk the streets

Walk the streets under these signs of danger in this world...
