Pixies, Build High

Build high, build high [2x]

Cause my old man is bleeding
And my poor dog needs feeding
And this time I'm really broke
So let me feel your leg of hope around me

Build high, build high [2x]
I said build high, yeah, build high
Build high, build high [2x]

Hold me up with pride
Cause I'm not beautiful and
I don't have no pretty friends
Can't pretend.
I'm tired of believing
In the things that go on here.

Lately it makes me feel
Just like someone's forming
In the air air air

Build high, build high [2x]
I said build high, yeah, build high
Build high, build high [2x]
