Polica, I Need $ // So Leave

No one seems to stay they just leave you cold
No one seems to know why your love grows old
Chasing and wasting for our own desires
Love what we need until your need grows tired
I need money, I need money
It□s taking me too long for this debt to drop
And if it comes to it, I□ll be dancing down the table tops
'Cuz no one can help me now
No one can help me now
No one can help me now
I don'□t need a love
Got enough worry to fill me up
I don□t need a man, I don'□t need a man
All that he does I can, I can
No one can help me now
No one can help me now
No one can help me now
I don'□t need a man, I don'□t need a man
All that he does I can, I can
I don'□t need a love, I don'□t need a love
Got enough worry to fill me up
Had enough
Had enough
Had enough
I don□t need a man, I don'□t need a man
No one seems to stay they just leave you cold
No one seems to know why your love grows old
Chasing and wasting for our own desires
We love what we need till the need grows tired
No one can help me now
No one can help me now
No one can help me now
Sing it out to some dark cloud Chasing and wasting for our own desires
We love what we need until the need grows tired
Chasing and wasting for our own desires
We love what we love until the love grows tired
You love what you love until I grow tired

//

Follow farther into the fight
We both think we□re right
You, you say your hands are tied
I just want to fight
Follow me to the fight
So leave
So leave me
Alone is all I know
So leave
So leave
So leave
So leave me
I don□t like when you tell the boys that I□m your girl
Wear me round like a lucky charm with plastic pearls
So leave
Me alone is all I know
Just me and my girls
So leave
So leave
Me alone is all I know
So leave
So leave
So leave
So leave me

I don'□t like when you tell the boys
That I□m your girl
String me up like a lucky charm with plastic pearls
Just me and my girls
So leave me alone is all I know
Just me and my girls
So leave
So leave
Me alone is all I know
