

98 Degrees, I Wasn't Over You

Girl no matter where I go
I call you after every show
In your voice I hear a funny tone
Somebody's holding you
Now you see me on TV
I thought you'd be proud of me
Somehow things have changed (oh yea)

I wasn't over you (over you)
I was away from you
And now you've left me (oh baby)
When sky's are gray
I wasn't over you (over you)
I was away from you
And now you've blown it all away

When I'm on stage with 98 Degrees
Trying to make a way for you and me
City to city, you're on my mind
Tell me baby baby, who's got my time
All I do, I do for you
Now look what you've put me through
My heart is hurting for you, oh baby

I wasn't over you (over you)
I was away from you (hoo)
And now you've left me (you left me baby)
When sky's are gray (oh no)
I wasn't over you
I was away from you (away)
And now you've blown it all away

Baby all I wanna do
Is be the one that's
there for you
And hold you when
It seems like times are bad
Girl this love is just too good
For me to let it go, oo oh oh, oh no

(ohh yea)
I wasn't over you
I was away from you (away)
And now you've left me
When sky's are gray (yea)
I wasn't over you (over)
I was away from you
And now you've blown it all away (oh oh oh)

I wasn't over you (hey)
I was away from you (oh oh)
And now you've left me
When sky's...

oh yea.....
