Renata Wolkiewicz (Wółkiewicz), UNITED FOR L

I have been in deepest water
Walk the sky on the unknown
Trying hard to solve my problems
I fear to be alone

I believe I was a …
I could do it all my on
All the world toy make me promised
Take me to the top

I believe that man who mean to be our live
But one day
One day he’s changed my heart

Flames and fire straight in the faces
Evil forces stand against us
I’m not afraid
I’ll take the chance
The walls might be falling around me
There’s power protecting and guarding
Unite us to fight for love

All the questions deep in …
But I thought I knew it all
Ne surrounding, new beginning
Foreign .. to my soul

There’s a time when pain kill inside in
There’s just gone
But I know
Life is what’s worth fighting for

Flames and fire straight in the faces
Evil forces stand against us
I’m not afraid
I’ll take the chance
The walls might be falling around me
There’s power protecting and guarding
Unite us to fight for love

Even when the enemies raising
Hand in hand all united in fighting
No fear in us!
We reach the stars
Our destiny leads us together
To pure love will last forever
So unite to dance tonight

Even when the enemies raising
Hand in hand all united in fighting
No fear in us!
We reach the stars
