

# 98 Degrees, Take My Breath Away

Oh..  
Oh..  
Oh yeah, oh yeah

If I had castles build-on high  
I'd find a million ways to write your name  
Against the sky  
Just to let you know you've caught my eye  
And if I had more than wealth could buy  
I'd sell it all and start again  
For just a chance with you  
Girl, I'd give my all to win your love

And I would be rich  
And I would build all my world around you  
Just to show you  
How you take my breath away, oh yeah  
And you would find love, sweet lady  
Nobody else this side of heaven knows  
How you take my breath away

If I could turn the day to night  
If I had faith to walk on water  
Maybe you would see  
The reason I thank God for miracles  
'Cause baby when you walked into sight  
You turned an ordinary man like me into a king  
I would do anything to win your love

And I would be rich  
And I would build all my world around you  
Just to show you  
How you take my breath away, oh yeah  
And you would find love, sweet lady  
Nobody else this side of heaven knows  
How you take my breath away

I think there's something here worth saying  
I don't want to scare you  
So let me make my wish  
And hope that you believe  
In simple love, like I do  
Say that it's true, baby  
'Cause you've got me shakin'  
My breath has now been taken  
I've got to overcome this achin  
To win your love

And I would be rich  
(To win your love)  
And I would build all my world around you  
(I'd build all my world around you)  
Just to show you  
How you take my breath away  
And you would find love  
(And you would find love)  
Oh sweet lady  
Nobody else this side of heaven knows  
How you take my breath away

Take my breath, oh..  
Take my breath  
Take my breath (Oh..)  
How you take my breath away

Take my breath, oh..  
Take my breath  
Take my breath (Oh..)  
How you take my breath away

I love you  
(And I would be rich)  
I wanna win you  
(And I would build all my world around you)  
Yes I do, yes I do  
(Just to show you)  
Your heart, your mind, your soul, your time  
(How you take my breath away)

Take my breath, oh..  
Take my breath  
Nobody else this side of heaven knows  
How you take my breath away
