Retard-O-Bot, Almost

You will never be who I am
You may never see what I can
Probably never be everything you are
We cannot agree on anything
Everything you do is better
Everything you say is right
Anything I do, just won't do
Still you find a way to justify
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
I will never be who you are
I may never see what you do
Probably never be just like me
Still cannot agree on anything
Anything you do is better
Everything you say is right
Anything I do, just won't do
Still you find a way to justify
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
You will never be who I am
You may never see what I can
Probably never be everything you are
We cannot agree on anything
Everything you do is better
Everything you say is right
All we ever do is bitch and fight
Still you find a way to pass the time
Almost always
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
Negative criticism
