Rodney Carrington, Things We Didn't Know

We were young when we first met,
And I won't ever forget the way you made me feel that night back then,
Little did I know my life had change forever
inside of you my angel had to be
All at once the baby came along,
everything was moving fast
but nothing seemed wrong

Chorus
Thank god for that
Things we didn't know
Thank God for that
If we did we might turn back
Thank God for that
He must have known that we weren't through
God gave me all I need
He gave me you

We struggled the first few years
There was laughter
There were tears
Through it all somehow we made it work,
Our babies brought us joy
Held us close together,
what we didn't have we made with love,
Sacrifice you gave when I was gone
Dreams u let me follow
always brought me home

Chorus

Everything we have been through
Will bind our love forever
Not a day will ever pass
that we won't be together
here we are much stronger than we have ever been before
Our souls are sown together and our hearts forever more
I look forward to our future
And what our days shall be
Our kids our life our love are all we'll ever need
The mother that you are is made me proud
And the wife that you have been
I am so glad I found

Chorus

God gave me all I need
He gave me you
