Rodney Crowell, Our Little Town

If you're just passing through there is not much to do in our little town
If you're moving too fast then you probably won't last in our little town
The man on the street has a light in his eye and a shine on his shoes
There's not much of a darkside here
I just want to make that clear

Hey our little town is a real fine place
Hey our little town has a style and a grace
In our little town we're not gathering dust
Hey our little town is a face you can trust
Take a good look at us in our little town
Our little town

So you've made some mistakes, you can put on the brakes in our little town
You've been living in vain why not get off the train in our little town
The ways of the world are like dust on a windshield
just wipe 'em away
And see how it feels to be right where you want to be

Hey our little town is a real fine place
Hey our little town has a style and a grace
In our little town we're not gathering dust
Hey our little town is a face you can trust
Take a good look at us in our little town
Our little town

In our little town we've got nothing to hide you see
And if I were you there'd be no place I'd rather be

Hey our little town is a place in the sun
In our little town we don't hurt anyone
In our little town we will tell you no lies
Hey our little town looks you right in the eye
We never say die in our little town
Our little town
Our little town
Our little town
