Roger Clyne & The Peacemakers, My Heart Is A

Well my heart is a U F O
Well my heart is a U F O
Baby, my heart is a U F O
Welcome to my interstellar myocardium
Come on momma won't you kick it into hyper drive
We'll slipstream around behind Venus
You know we're better off where she ain't seen us
Because we don't need love to know it's good to be alive

My heart is a U F O
Well my heart is a U F O
It's true, that my heart
Is a U F O

Well if you'll come out tonight
We'll dance at the speed of light
And I'll have you back by sunrise
Before your man gets home

Well the government APB really don't much bother me
You know I've been on the dole since 1943
So girl forget them honky-tonk bars
We'll take a ride up through the stars
And our hearts won't ache at light speed anymore

My heart is a U F O
Well my heart is a U F O
Baby my heart is a U F O
It's true
That my heart is a U F O
Don't you know
That my heart is a U F O
UFO
