

# 991, Don't Make Me Wait

Don't you know I'd do anything for you  
I'd steal the stars out from the sky above you  
I would tame a wild hurricane wind  
If you take this heart of mine  
Give me a signal, please give me a sign  
Come on, baby, don't you waste no more precious time  
In the midnight moonlight shine  
Don't hold back tonight  
Give me the green light

Chorus:

Don't make me wait one more day  
Don't you forsake this love so great  
Don't you know I'd walk to heaven's gate  
Just to hear you say "I love you"  
Don't make me wait one more day  
We've been friends and been so close together  
But I need more to satisfy this hunger  
I want your body, mind, spirit, and soul  
Just let the feeling go  
Oh, yeah, give me a signal, please give me a sign  
Come on, baby, don't you waste no more precious time  
In the midnight moonlight shine  
Don't hold back tonight  
Give me the green light

Repeat Chorus

Don't you forsake this love so great  
Don't you know I'd walk to heaven's gate  
Just to hear you say "I love you"  
Don't make me wait one more day  
Baby, let's set the wheels in motion  
You've got the cure to a heart that's broken  
Come on, baby, let's seize the moment  
Just say the words I long to hear spoken  
Don't make me wait  
Don't you forsake

Repeat Chorus to fade
