Rufus, Music Man (The D.J. Song)

CHORUS:
Music man play your song for me
Music man fill my soul
Music man play a melody
Music man take control

I listen to you play your heartaches
I listen to you play your dreams
I listen to your every feeling
I wonder what you really mean

CHORUS

I sit alone at night and wonder

Could you be playin' just for me
I wait for you to play my future
I wait for you to set me free

CHORUS

In your little room you sit all night long
Playin' for someone that you cannot see
Do you wonder if someone really hears
What you're tryin' to say with your melody

CHORUS
