# Ryker's, Guilty

mind shut... you act unaware
chained down to addiction
pregnant... but you do not care
a monumentary pleasure
was what you've gained
an everlasting violation will remain
accused... of existence
sentenced... to life
innocence... no longer matters
guilty... as charged
deaf... blind... numb
born with a crippled heart
an emotionless human being
destined to fail right from the start
no hope of recovery
there's no cure
life will never last
that's for sure!
accused... of existence
sentenced... to life
innocence... no longer matters
guilty... as charged
guilty!
what for?
you hurt the one you should protect
what for?
infanticide!
