Sahlene, Fishes

I'm the kind of girl that you wanna marry
live on on a farm with a bunch of kids
go to bed at night and we'll get up early
kind of a way our grandparents did

give me little groom and i'll sweep your bar now
give me little soap and i'll wash your jeans
give me half of chance and i'll knock your sons up
sounds really good, if you know what i mean

We could live on an island far the way
we could swim with the fishes in the sea
take a ride on a spaceship to the stars
when we there happy fishes we would be

I'm the kind of girl that you wanna carry
through the streets of Rome or perhaps Madrid
then we'll have a train on the to Venice
sleep on a boat under a bridge

Maybe this is all just a beggers banquet
maybe this is all just a fools delay
and if i will recall this a imagination
we can pretend, at least for tonight

Chorus:
That we live on an island far the way
That we swim with the fishes in the sea
that we ride on a spaceship to the stars
and we there happy fishes we would be
We could live on an island far the way
we could swim with the fishes in the sea
take a ride on a spaceship to the stars
when we there happy fishes we would be

Chorus

I'm the kind of girl that you wanna marry
live on on a farm with a bunch of kids
