Samantha James, Rise

You should believe me
And everything I choose to do
You should believe that I'll always come back to you

Life is discovering
The love that we create
Life is a mystery
We need to embrace

In everything (we need to let go)
You see all your dreams will follow
In every way (we need to let go)

"CHORUS:"
"People rise together
When they believe in tomorrow
Change the day to forever
This life keeps moving"
(repeat)

Open your mind and see
We have everything we need
Dream or reality
Fulfill its destiny

In everything (we need to let go)
You see all your dreams will follow
In every way (we need to let go)

"CHORUS"

You need to let go...
You need to let go...

People rise
When they believe
Change the day
This life keeps movin'

"CHORUS"
