Scott Weiland, Divider

killer wake in the evening
killer walk ouside
when she comes divided
she nearly comes alive
she only cares when her libido is buzzing
bees only thrive when the honey is there
she knows the way to the script write doctor
she calls him up when the itch gets bad
the itch gets bad
a model makes you famous
a dying goat's a lamb
a processed pig is white trash meat
some people call it spam
she only cares when her libido is buzzing
bees only thrive when the honey is there
she knows the way to the script write doctor
she calls him up when the itch gets bad
the itch gets bad
a drinker, he's a boozer
a junkie, he ain't shit
some of them get famous
but most of them just get it
