

A.B. Quintanilla y Los Kumbia Kings, I Need You

Yo, yo, yo, yo, yo
Yeah, c'mon, c'mon
Millennium, millennium
Here we go, yo, here we go, yo
I need you
I need you
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
Wanna picture you and I together in this paradise
It don't matter really where we go or where we at I'm feeling right
'Cause I remember you were down with me
To be with me and care for me
You could get with me across the world and stay this way sincerity
'Cause that when it comes to you, I'd do anything
Anytime or the place, you know that I'll be there
Should have thought before you came and stepped to me
Now listen close, this is what I mean
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I wish I could just let you know that I want to keep it real
We could keep it on the down-low, let me know whatever you feel
You know I want you for my lady and baby you drive me wild
You drive me crazy, just stay with me a little while
Oh, I know that you've been hurt and even played before
Don't you worry 'bout a thing 'cause I won't do you wrong
Just understand babe
You got me babe, just be my lady
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I like to make love to you from the down romantic tone
Step into my room girl and if you didn't know now you know
Call it, call it what you want
Spend the rest of my life with you until the day that I'm gone
Bring that flavor favorite, gone go 'head so stop that praying
I'll be the late guy here to take you girl from a that hate
So baby when you're praying, I'll be the big thing, taste it
So won't you gone giddy up, you know girl I'll be the next to you baby
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I need your love and touch tonight
To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
I need your love and touch tonight

To feel your body next to mine
Kiss you all from head to toe
I need you, I need you
