

# A Band Of Bees, Listening Man

Tell me something away from trouble and away from doubting  
Tell me straight from the spirit, from the top of the mountain  
Let love be the reason between me and you  
As real as the morning as fresh as the dew  
If fates got a hold then it's up to you  
It's a simple thing we've got to do  
Just a listening man  
Try to understand  
Just a listening man  
Doing the best I can  
Tell me something before I stumble and show my weakness  
Tell me right on the limewire fighting for progress  
I can hear there's a sound that's coming through  
There's a post in the ground so what we gonna do?  
You can have all your dreams if you really believe in something that's  
something true  
Just a listening man  
Try to understand  
Just a listening man  
Doing the best I can  
Just a listening man  
Try to understand  
Just a listening man  
Getting carried through this land  
Tell me something without any lies that cover my feelings  
Give me time now I understand these lessons have meaning  
Let love be the reason between me and you  
As real as the morning as fresh as the dew  
If fates got a hold then it's up to you  
It's a simple things we've go to do  
Just a listening man  
Try to understand  
Just a listening man  
Doing the best I can  
Just a listening man  
Try to understand  
Just a listening man  
Getting carried through this land
