Sofie, Suicide

here goes all the tragedy
nothing else meant to me
hurricane ivan hits florida
while mozart makes mossiac
fire departments closes everyday
911 is on display
earthquakes and flood
drips the water on my blood

give it a ride
love isn't suicide
tell me anything else but it
you can't make me cry
but just freaking suicide
no places to hide
when it all comes to suicide

you held me so tightly
to protect
change your act
and show me your respect
yea

give it a ride
love isn't suicide
tell me anything but it
you can't make me cry
but just freaking suicide
no places to hide
when it comes to suicide

(guitar solo)

burst out my heart
it tore apart
sit next to me
set us all free

give it a ride
love isn't suicide
tell me anything but it
you can't make me cry
but just freaking suicide
no places to hide
when it comes to suicide
give it a ride
love isn't suicide
tell me anything but it
you can't make me cry
but just freaking suicide
no places to hide
when it comes to suicide

I don't like rides
but don't give me suicide
