Spice Girls, Out Of Your Mind (Victoria Single Fea

Who do you think you are
Telling me I've gone too far
You must be outta your mind
Tellin' your friends I was buggin' you
But you weren't being true
Steppin' out of your mind
Open your eyes, boy, you trouble me
Expensive lies but you're playing for free
I gave you what you want, what you need
My time is wasting, but for you it's a breeze
You're out of your mind
Gonna make this easy for you
(I'm not outta my mind)
Gonna show you I'm not crazy
Boy, you're wasting my time
(I'm not wasting your time)
You're out of your mind
(You're out of your mind)
Out of your mind
Thinking you were someone special
Time has shown and now I know
How wrong I have been
Always feelin' that you're using me
Confusing me, two-timing me
I can't remember how long it has been
Open your eyes, boy, you trouble me
Expensive lies but you're playing for free
I gave you what you want, what you need
My time is wasting, but for you it's a breeze
You're out of your mind
Gonna make this easy for you
(I'm not outta my mind)
Gonna show you I'm not crazy
Boy, you're wasting my time
(I'm not wasting your time)
You're out of your mind
(You're out of your mind)
Out of your mind
You sing a song and people jump on you
What this guy is saying can't be true
All I'm saying is that some girls can trip
Start buggin' and buggin' and make me wanna flip
I like the spice
Open your eyes, girl, you trouble me
Expensive lies but you're playing for free
I gave you what you want, what you need
My time is wasting, but for you it's a breeze
You're out of your mind
Gonna make this easy for you
(I'm not outta my mind)
Gonna show you I'm not crazy
Boy, you're wasting my time
(I'm not wasting your time)
You're out of your mind
(You're out of your mind)
Out of your mind
You're out of your mind
Gonna make this easy for you
(I'm not outta my mind)
Gonna show you I'm not crazy
Boy, you're wasting my time
(I'm not wasting your time)
You're out of your mind
(You're out of your mind)

Out of your mind
True Steppers you're out of your mind
Ice cream you're out of your mind
Ten below you're out of your mind
Dane you're out of your mind
This tune's gonna punish you
