Spleen United, Gold Ring

I lost my gold ring long ago long ago
I lost my gold ring gold
You're such a young girl wanna go?
I want to go with such a young girl like you
Across the mainland on my own on my own
Across the mainland gold
I lost my main pal long ago long ago
I lost my main pal gold

I know my hardcore Mexico Mexico
I know my hardcore gold
I left my dream house long ago long ago
I left my dream house gold

To crash in the soil and never get enough
This is to me open fire love
Open heart fire love

You've got your Sunday guarantees guarateed
You've got your Sundays free
I've got my Friday enemies enemies
I've got my Friday gold
You've got your high class favorite vehicles
You've got your high class gold
That's such a white man way to go way to go
For such an old man like you

To crash in the soil and never get enough
This is to me open fire love
Open heart fire love
