Stereo 360, Don't Belong

(Hills 3:58)

A simple world complicated
Where nobody knows your name
Tough to solve a crime
Where no one's involved

And oh what a great place to be alone
Just don't walk away

I don't belong here
I'm just happy
And it doesn't mean a thing
I don't belong here
I'm just happy
And it doesn't change a thing at all

Why does it hurt to sing songs like yesterday
Clear your eyes
You've got nothing to hide

When you're old
And you look behind
That's your life

God it could be something to see
If you wanna leave
Don't walk away from me

I don't belong here
I'm just happy
And it doesn't mean a thing
I don't belong here
I'm just happy
And it doesn't change a thing at all

Are you waiting for a quick solution
Are you letting go to easy this time
Are you running through tomorrow
From what matters the most
What's stopping today
From wasting away

I don't belong here
I'm just happy
And it doesn't mean a thing
I don't belong here
I'm just happy
And it doesn't mean a thing at all

And oh what a great place to be
And oh what a great place to be
