Stevie Ray Vaughan, If You Have To Be

Got my head on my shoulders, my feet on the ground
To keep from breakin' out of this blues side of town
If you have to know, do you have to know
I've been too far up, too far down, if you have to know

They went and locked me up for 47 days
Wouldn't let me out and I wouldn't change my ways
If you have to know, do you want to know
I take what I get and I play where I stay, if you have to know

I'm a runaway engine on a midnight line
No destination and no track of time
Ain't worried about yours, don't worry about mine
If you have to know, since you have to know

Well too many bars and too many nights
Too many lefts and not enough rights
If you have to know, do you have to know
I'm the last one to leave and the first one to fight, if you have to know

Got a whole lot of women, a whole lot of beer
Half outta whiskey and flat out of Chester Fields
If you have to know....do you have to know
I got some kinda deal but it's all up to you, if you have to know
