Subseven, Hold On

We're passing through this world so fast girl
Close your eyes and tap three times
No place like home will ever compare
Someday we shall say goodbye
Shut your eyes just one more time girl
We won't fall for no more lies
Our problems here are temporary
Ordinary, never worry

Hold on - baby hold on
This place is not our home
So let's hold on- baby hold on
It's not where we belong

Head up high - Hold the line
Our fire inside must never die [repeat]
We're traveling strangers with the fortune
Growing stronger everyday
We'll stay up late and raise our voices
Knowing things won't stay the same
Ancient paths reveal our stories
Wrote in blood and left to read
All the letters of the past
We're the first to be the last

Hold on - baby hold on
This place is not our home
So let's hold on - baby hold on
It's not where we belong
