Suicide Machines, S.O.S.

I take a look around,
I don't like what I see!
A bunch of people
who don't know shit about unity!

I see right through your skin,
you say you see through mine.
Then please explain to me
why we fight all the time.

I can't take it anymore,
this is bothering me.
Got people killing each other
Why does it have to be?

I wish I knew, I really wish I knew

It's a bomb with a short fuse,
and I know it seems like no use.
The tension's building a reaction,
this is a call to action!

SOS, we need help! (x4)

Man's inhumanity towards another man,
it's man's insanity and ignorance again
And now the time has come to stop what's going on.
The hatred's build up, exploding like a bomb!

It's a bomb with a short fuse,
and I know it seems like no use.
The tension's building a reaction,
this is a call to action!

SOS, we need help! (x4)
