Sweetbox, Break Down

Maybe I'm startin' to cry
But I don't know
Cause the feeling's so strong
And I just don't know what's wrong
Oh tell me
Have you been willing to try to ease the load
It's geting heavy to hold
Sometimes I'm wondering how far to go

Who'll take the blame this time
Who's gonna be wrong and right
Who's gonna convict the crime
All tough with pride
We said we'd
We'd never be the stereotype
Never be stuck in life
Never ever been so close to goodbye

But
When I see your face
It could be love or hate
I'm burning up with rage - up with rage
I'm gonna break,
I'm gonna break
Oh baby I'm breaking down yeah
I've been in misery
But I don't wanna be
Caught up in jealousy
But this ain't me
I'm gonna break
I'm gonna break
Oh baby I'm breaking down

Will I just be wondering why
This didn't work
With my face in the dirt
Seems I've been loving to hurt
Oh tell me
Was it worth the lost time
Good or bad
Am I happy or sad
Feels like I lost what I never had

Should we just say goodbye
Is it even worth the try
I stay awake at night turning words in my head
Caught up in reverie
Of what will never be
And maybe baby what we never were

Cause when I see your face
It could be love or hate
I'm burning up with rage - up with rage
I'm gonna break
I'm gonna break
Oh baby I'm breaking down yeah
I've been in misery
But I don't wanna be
Caught up in jealousy
But this ain't me
I'm gonna break
I'm gonna break
Oh baby I'm breaking down yeah

Break down

Down

Baby oh baby

When I see your face
It could be love or hate
I'm burning up with rage - up with rage
I'm gonna break
I'm gonna break
Oh baby I'm breaking down yeah
I've been in misery
But I don't wanna be
Caught up in jealousy
But this ain't me
I'm gonna break
I'm gonna break
Oh baby I'm breaking down yeah
