Swishahouse, Crunk In Yo System (Freestyle)

drank up in my cup, man hold up
drank up in my cup, man hold up
drank up in my cup, man hold up
you need some drank in your system
pop the seal and pour a four and
get some drank in your system
get some drank in your system
get some drank in your system
.. and hennesy is unlikely
if I ain't takin' shots of ..
don't excite me
I used to drink cans of that redbull
just to get a little buzz
and I was sippin on ..
before you knew what it was
step in the club it ain't right
they servin' me these
watered down drinks all night
I'm tired of ..
and cranberry juice
and for some reason graygoose
just wont get me loose
a long island ice tea
just ain't for me
and a hurricane was cool
but that was in nine three
I learned my lesson
with these stingy bar tenders
I dont drink no fruity sweet drinks
from out blenders
so I had to take matters in my own hands
me and my boy ..
.. a little plan
we started sneakin' in the club
syrup by the pint
and now we gone off drankin'
leanin' all night
it's goin' down
get some drank in your system
get some drank in your system
pop the seal and pour a four and
get some drank in your system

..
