

# A Cursive Memory, Tonight Lites

Let's get this on tonight  
We'll turn down all the lights  
We knew it felt so right  
I saw you,  
From across the room,  
I saw you,  
And I said to myself  
By the end of the night  
We make some time  
To have a conversation that will start this off right  
Cause you looked  
Right into my eyes  
You looked,  
So shocked and surprised  
Cause I've been catching looks from across the room  
Watching you fake conversation  
because you knew that I was looking too  
Lets get this on tonight  
We'll turn down all the lights  
We knew it felt so right  
Even if this is just for tonight  
From then on,  
It was all over,  
Ya from then on,  
We kept getting closer  
Well you came down the stairs, grabbed my hand and lead me  
Through a long lit hallway, to the bedroom and you said to me  
Let's get this on tonight  
We'll turn down all the lights  
We knew it felt so right  
Even if this is just for tonight
