Terence Trent D'Arby, Passion

Everything's all right
Because you're here with me
Unrestricted - totally
And it's a safe bet that tonight
Will go just fine
Work your body next to mine
Unwind
Let's keep our passion tight
This ain't no fashion night
And if you close your eyes
A magic carpet ride will fill the skies
I'm glad you came
I need your company
It's only better with the three
Lay back, relax
And let your love go through
It's all I ask of you to do...
You look so good right now
Why don't you make a vow
To show me how
I'll try to make it smooth
But you have got to move
If we're doing fine...
Passion
In bed together
I want to love you all night long
Passion
Moving together
Making your feelings come alive
Passion
You're my forever
I want to have you for my own
You're pretty special girl,
You mean the world to me
Everything's all right
Because you're here with me
Unrestricted - totally
Come, let's enjoy
Our time right now
And let's not wait
Let's escape - there's a reason
To celebrate...
And if you close your eyes
A magic carpet ride will fill the skies
Passion
In bed together
I want to love you all night long
Passion
Moving together
Making your feelings come alive
You're my forever
I want to have you for my own
You're pretty special girl,
You mean the world to me
