# The Adicts, We Looked Back

We started playing at seventeen
Another part of a bigger scene
We used to wear a shirt back then
Said f**k you man we don't care

We looked back
We didn't see you following
We looked back
Where did you go
We looked back
We didnt see you following
We looked back
A rivers gonna flow

There were times as good as it gets
& there were those disasterous sets
We always had a story to tell
Maybe you tell it as well

We looked back

Thanks for coming if you were there
It is something that we will always share
We're sorry if we let you down
It ain't always funny being a clown

We looked back on times gone by

A song for you all.
