A Day In The Life, The Flux Capacitor

Let's just hope, we can make it out alive
Nothing hurts worse than knowing
Be anywhere, with anyone again
Nothing hurts worse than knowing
It hurts so bad inside
to know that your gone
maybe I'll take your picture
to make this last longer
It hurts so bad inside
to know that your gone
maybe I'll take your picture
It hurts so bad inside
without you
you make me feel this way
without you
Let's just hope, we can make it out alive
Nothing hurts worse than knowing
Be anywhere, with anyone again
Nothing hurts worse than knowing

and if we try, to make it out alive
nothing hurts worse than knowing
let's just try, to make it out alive
nothing hurts worse than knowing
and if we try, to make it out alive
nothing hurts worse than knowing
Let's just hope, we can make it out alive
Nothing hurts worse than knowing
Be anywhere, with anyone again
Nothing hurts worse than knowing
let's just hope
let's just hope
let's just hope
Let's just hope
We can make it out alive
