The Project Hate MCMXCIX, Loveless, Godless,

Sinned at souls
Save us
We burn only for the death that awaits us
Godless we breathe
All that's sacred must die
Blood fallen
All will wither and die
New dawning
Blood floating
Red rivers
As we crawl here on our knees
And then as we see death we see life
...Flawless
There is no good in man, there's only greed
Inflicted on those left to dwell
Weak like all God's sheep
This is a new dawn, the turn of justice
His wrath is upon us now
This is the last march...
March eternal
This is the last march..
Armageddon March Eternal
And as the sun descends on these skies
And as the sun reveals a new dawn
Hear our roar
Dawn...
Hear our roar
Dawn...
Sinned at souls
Save us
We burn only for the death that awaits us
Godless we breathe
Armageddon March Eternal
Armageddon March Eternal
Armageddon March Eternal
