# The Sweet, Give The Lady Some Respect

Just give the lady some respect boy
She don't need your neglect boy
Do you know that if she where mine
I would give her some more time
Yes it's you im talking to sir
Listen or you gonna loose her
Waking up to the truth there
Just give the lady what you think she needs
Just give the lady what you know she needs
And if you let her get to know you better
She'll never let you down
Oh-Oh the lady needs to know you
If anything you said should upset her
Don't let it turn you round
Oh-Oh the lady needs to know you
The lady needs to know you
The lady needs to know
you feel you need some one to turn to
But your affraid that love will burn you
And your head is cryin' save me
Talk it out with the lady
Yes it's you im talking to sir
Listen or you gonna loose her
Oh-Oh just give the lady what you think she needs
Just give the lady what you know she needs
And if you let her get to know you better
She'll never let you down
Oh-Oh the lady needs to know you
If anything you said should upset her
Don't let it turn you round
Oh-Oh the lady needs to know you
The lady needs to
Just give the lady some respect boy
She don't need your neglect boy
Do you know that if she where mine
I would give her some more time
Yes it's you im talking to sir
Listen or you gonna loose her "You gonna loose her"
So give the lady whats she really needs
Just let her get to know you better
She'll never let you down
Oh-Oh the lady needs to know you
If anything you say should upset her
Don't let it turn you round
Oh-Oh the lady needs to know you (Repeat till fade)
