

# A.F.I., AFI - Catch A Hot One

Let's tap your heart so we can paint the walls  
And see if anybody likes the tone  
(Or the pain)  
The hungry eyes waiting for your life flash  
Now they're gonna see it  
(Now they're gonna see it)  
Open your veins so we can make a pool and bathe  
And see if anyone complains  
(Of the stain)  
Let's strip you down so we can see your old scars  
Now you're gonna feel it  
(Now you're gonna feel it)  
Show me how to shine now  
Have you turned, turned to dust?  
(I saw an insect learn to fly)  
Have you ever seen the kingdom of the flies?  
(It's form was scorned)  
Have you lost the sense of touch?  
(I saw it stay in sovereignty)  
Have you ever turned to dust?  
Let's lift you up so we can see how fast you fall  
We always thought that you could fly  
(Now you'll crawl)  
The lack of loyalty you thought you once felt  
Now you're gonna feel it  
(Now you're gonna feel it)  
Show me how to shine now  
Have you turned, turned to dust?  
(I saw an insect learn to fly)  
Have you ever seen the kingdom of the flies?  
(It's form was scorned)  
Have you lost the sense of touch?  
(I saw it stay in sovereignty)  
Have you ever turned to dust?  
Now show me, now show me  
Now show me, how to shine  
Now show me, now show me  
Now show me, how to shine  
Now show me, now show me  
Now show me, how to shine  
Have you turned, turned to dust?  
(I saw an insect learn to fly)  
Have you ever seen the kingdom of the flies?  
(It's form was scorned)  
Have you lost the sense of touch?  
(I saw it stay in sovereignty)  
Have you ever turned to dust?
