# Thompson Twins, Rock This Boat

Hush hush hush stop making a fuss
Someone might come and rescue us
And when they do they'll turn on all the lights
And find the nest of vipers that we keep out of sight

I'm gonna rock this boat
I don't wanna float
Down the river with you
I'm gonna rock this boat
'Cause I really want to know
If our love is true

You're a little scared, I'm a little touched
Maybe I shouldn't go pushing my luck
But I saw the animal in your eyes
I wanted to go-go but my hands were tied

I'm gonna rock this boat
I don't wanna float
Down the river with you
I'm gonna rock this boat
'Cause I really want to know
If our love is true

Love love love is a dangerous drug
Makes me wonder what I'm thinking of
I'm gonna make you laugh, gonna make you cry
'Cos I don't care too much for paradise

I'm gonna rock this boat
I don't wanna float
Down the river with you
I'm gonna rock this boat
'Cause I really want to know
If our love is true

I'm gonna rock this boat
I don't wanna float
Down the river with you
I'm gonna rock this boat
'Cause I really want to know
If our love is true

I'm gonna rock this boat
I don't wanna float
Down the river with you
I'm gonna rock this boat
'Cause I really want to know
If our love is true

I'm gonna rock this boat
I don't wanna float
Down the river with you
I'm gonna rock this boat...
