Tina Dickow, Use Me

So you've messed it up
Don't know when to stop
Said more than enough

I've touched you where it hurts
And I know I'm not the first
But please don't make it worse

Don't be so hard on yourself
Take it out on someone else
Say my name anyway you please
Use me

Look me in the eye
I'd love to see you smile
And I know how hard you try

Don't be so hard on yourself
Take it out on someone else
Say my name anyway you please

In the morning
You'll see a different side
In the morning
A softer light
In the morning
It will all look right
And you won't have to hide

Don't be so hard on yourself
Take it out on someone else
Say my name anyway you please
Don't be so hard on yourself
Take it out on someone else
Say my name anyway you please
Use me
