Tora Tora, As Time Goes By

One more day, gone and pass you by
Got to find a better way
One more night, You'll have another try
To take these blues away

People tell me what I need, no they don't see
I'm never gonna come around
No I don't need them, let everybody see
It's never gonna bring me down

I know, I've seen it before
When lady luck takes you for a ride
She leaves you out in the cold
She leaves you out of control
But things are gonna change
As time goes by
Lord as time goes by

Remember days, long ago
When I never thought I would be alone
Different days, in a different life
never be here no more

People tell me what I need, no they don't see
I'm never gonna come around
No I don't need them, let everybody see
It's never gonna bring me down

I know, I've seen it before
When lady luck takes you for a ride
She leaves you out in the cold
She leaves you out of control
But things are gonna change
As time goes by

You know, you got to hold on
Some dreams will never die
Things are gonna change
As time goes by

Endless nights, all alone
There gone with the wind
Said goodbye,yes I let them go
Never be here again

People tell me what I need, no they don't see
I'm never gonna come around
No I don't need them, let everybody see
It's never gonna bring me down

I know, I've seen it before
When lady luck takes you for a ride
She leaves you out in the cold
She leaves you out of control
But things are gonna change
As time goes by

You know, you got to hold on
Some dreams will never die
Things are gonna change
As time goes by

I know, I've seen it before
When lady luck takes you for a ride

She leaves you out in the cold
She leaves you out of control
But things are gonna change
As time goes by

You know, you got to hold on
Some dreams will never die
Things are gonna change
As time goes by
