Train, Give It All

When I think about my problems
And I truly understand
In a world like this
Being a white man
I’m ashamed that I complain
I’m not sure that I know pain
But I know this

I’d give it all for one more night with you
I’d give it all for one more night with you
I see faces everyday
That look at me in a way
As if to say
If you only knew
You wouldn’t last a day in my shoes
And I suppose that's true
I have a lot
Maybe too much

But
I’d give it all for one more night with you
I’d give it all for one more night with you
Go on /6x
Be Free

I work hard at what I do
It’s the work that gets me through
But I’m starting to forget
And what I want is to remember
What I want is to remember
What I want do you remember me?
