Triple 8, Take Me Home

Take me home

This girl, got a hold of me,
Make me stop, Make me wanna see,
Then just a beautiful smile,
And now I know I'll never let her slide,
Find a way I gotta get inside,
Intend on making you mine,

(Tell me) Do you really wanna hold me, make it last all night,
(Show me) If you wanna be with me tonight,
(Baby) We could leave this place,
See the look on your face says take me home,
This is what she said to me

Chorus
Take me home,
I can picture your body,
Take me home,
And the feel of your skin,
Take me home,
Wanna touch you all over,
Take me home,
And let this party begin,

This girl, want her next to me,
Make my fantasy a reality,
And now she's blowing my mind,
She's in my world and everybody wants to be me,
But I just push them aside,

(Feel me) Moving closer, damn I want you girl,
(Hold me) I want you more than I can say,
(Baby) We could leave this place,
See the look on your face says take me home
And girl you keep on telling me

Chorus
Take me home,
I can picture your body,
Take me home,
And the feel of your skin,
Take me home,
Wanna touch you all over,
Take me home,
And let this party begin,
(Let me take you home)

Chorus (To the end)
