Uriah Heep, RUNNING ALL NIGHT (With The Lio

(Farr/Box/Daisley/Goalby/Kerslake/Sinclair)

I've been waiting for my lady
One hour - she finally came
She's been walking by my table
And I'm thinking
What's this viscious game
To be the only one who's waiting
To play that white witches game
And I knew that she was waiting
To cut loose on the town and meet
Somebody new for a change

When you're running
All night with the lion
Running all night with the lion...

I may not recall exactly
Her eyes can hurt as seen now
She was sitting at my table
And I'm making out like a clown
Oh, she'll make me very happy
When she showed her fallen again
And I knew she was waiting
To cut loose on the town and meet
Somebody new for a change

Rock 'n' rolling ladies
Good life to the games you can't win
She picked right up my table
Till it's time to go in
There's got to be something heavy
If only you'd show me a sign
When something said
She was waiting
To cut loose and meet
Somebody new for a change
