Velvet Acid Christ, Psycho

save you, kill you
save you, thrill you
sick of your shit, sick of your life
sick of your dreams, i pick up a knife
i stab into you, i stab into you
i kill your future, i kill your dream
i stab into you, i stab into you
i kill your future, what does it seem?
wrong god, wrong knife
wrong god, wrong life
wrong god, wrong life
wrong god, wrong life
i fell into you, i fell into you
open-armed, with a knife
blood on my hands, rage in my mind
no sympathy for your cries
the youth of today run astray
the youth of today run astray
with violence and innocence
put the blame on consequence
killing is so obvious
killing is so obvious
the answers for the world today
kill them all and run away
society's hypocrisies will pave the path for prophecies
society's hypocrisies will pave the path for prophecies
to take a your life with punity
to take a your life with punity
pushing further down, down
pushing further down, down
i stab into you, i stab into you
i kill your future, i kill your dream
i stab into you, i stab into you
i kill your future, i kill your dream
wrong god, wrong life
wrong god, wrong life
wrong god, wrong life
wrong god, wrong life
i stab into you, i stab into you
i kill your future, i kill your dream
where to go?
i kill you some more
nothing else but a f**king soar
wrong time, wrong life
wrong god, wrong life
wrong god, wrong life
wrong god, wrong life
