Baby(baby)...
These are the reasons(These are the reasons why I love you girl)
Baby(baby)...
These are the reasons why I'm loving you
These are the reasons why I really care
These are the reasons why I'm into you
These are the reasons why...
One, because she treated me so kind
Two, she never leave me after all this time
Three, sometimes I'm crazy and it gets to her mind
She never leave me lonely, your my one and only
Four, I'm waking up, it's not a dream
Five, she's in my bed making love to me
Six, once a while, it made her scream
She never leave me lonely, your my one and only
These are the reasons why I'm loving you
These are the reasons why I really care
These are the reasons why I'm into you
These are the reasons why...
Sunday morning early breakfast in bed
Monday she relax me and massages my head
Tuesday she is never to proud to beg
She never leave me lonely, your my one and only
Wednesday night I'm chillin in my room
She even wasted time to make her move
Thursday we got time to reset the mood
Thank God payday is Friday, so I can do things my way (Girl)
