Yazz, Happy People

Take no notice cos Im just the same
Theres a thousand other faces with the very same name
And we look like each other, and we all live together.
We talk about the same things
And we never try and change things.
(chorurs)
Were the happy, happy people
We never give opinions and we never state views
After all, you cant be sure that what we say is true
And if you want to join us, you can follow on behind us.
You can talk about your visions
You can make some big decisions.
(chorus repeat)
We believe in having fun and smiling all the time
And sometimes were on tv if were over 69
And when we have a raffle, then its just a big reshuffle.
Its a democratic poll
But were the ones who are in control.
(chorus repeat)
