Gold
gold - gold
gold gold -
Blue moon is walking
big slips are smoking
Big time disaster
my heart gets faster.
My pot is melting
doctors consulting
Destiny - give it to me
destiny - give it to me.
Give me your gold
give me your gold.
This is your life and you got to know
It's just one more show
it's fantasy - give it to me
Fantasy - give it to me.
You got a nugget in your pocket
got a nugget in your hand
You got a nugget in your pocket
got a nugget for a grand.
So forget your hesitation
take it as an invitation
Nuggets for a great confusion
nuggets for a great illusion.
Clouds - love - stars - colours -
Ain't got no gold
so you get no show
So come on with me and give it. to me
give it to me.
Gold
gold gold
gold -
This is your show and it's all in here
So why donY you stay? I give it to you
give it to you.
Give me your gold
give me your gold.
You got a nugget in your pocket
got a nugget in your hand
. . .
Gold - dig it into the night.
You got a nugget in your pocket
got a nugget in your hand
. ..
