A-ha, I Wish I Cared

To hold me closer or set me free To trust completely or let it be You don't know my destiny You can't see what I can see

Hey - I wish I cared Hey - I wish I cared

To love me truely or let me go Inbetween I don't want to know This is how it has to be No more us and no more we

Hey - I wish I cared Hey - I wish I cared

Once again, on the station See your face in a crowd Comes again the sensation You can't hear yourself think With their voices inside your head

Hey - I wish I cared Hey - I wish I cared I wish I cared Yes I really do I wish I cared (Hey) I wish I cared Yes I really do I wish I cared (Hey) I wish I cared I wish I cared (Hey)
