A Side, Forevermore (New Version)

INTRO: i may have run out of songs to sing i may have run out of words to say but all that i want you to know is what i feel for you: as endless as forever our love will stay together you're all i need to be with forevermore there are times when i just want to look at your face with the stars in the night there are times when i just want to feel your embrace in the cold night i just cant believe that you are mine now chorus: you were just a dream that i once knew i never thought i would be right for you i just cant compare you with anything in this world you're all i need to be with forevermore all those years ive longed to hold you in my arms i've been dreaming of you every night, i've been watching all the stars that fall down wishing you would be mine i just cant believe that you are mine now chorus time and again there are these changes that we cannot end as sure as time keeps going on and on my love for you will be forevermore wishing you would be mine i just cant believe that you are mine now you were just a dream that i once knew i never thought i would be right for you i just cant compare you with anything in this world as endless as forever our love will stay together you're all i need to be with forever more (as endless as forever our love will stay together)

you're all i need

to be with forevermore...
